PrecisionCare

S O F T W A R E

Software for the Human Services Community

PrecisionCare software is specialized software that was designed to meet the unique needs of agencies providing Human Services.

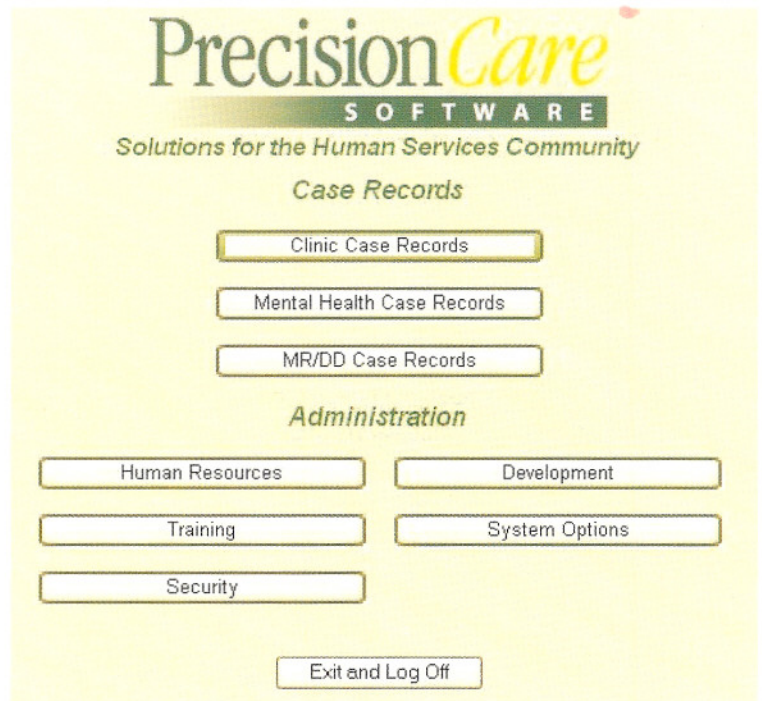

The PrecisionCare Difference

PrecisionCare Software Inc. was founded by a team of seasoned human service providers and experienced software developers. This unique partnership enables us to understand the specialized needs of the human services industry and apply cutting edge, user friendly technology to meet these needs in a cost effective manner. We have been providing computer software and services to New York's Human Services Community since 1995. PrecisionCare software is in use today at agencies all across New York State. At PrecisionCare Software, we believe that a computerization project involves more than just purchasing software and technology. It means building a long-term relationship with a provider who knows you and understands your needs. We strive to get to know the staff at the agencies we work with and provide them with hands-on personalized attention.

A solution for all providers

PrecisionCare is a Web-based application. It runs on an inexpensive Microsoft Windows based server. You can run PrecisionCare on your own server or PrecisionCare can serve as your Application Service Provider. Whichever mode of delivery is chosen, the option to change is always available. This flexibility makes PrecisionCare the suitable choice for all agencies large and small. PrecisionCare supports a wide range of human services programs including: mental health services, case management (ICM/SCM), TASA, OASAS, community employment, clinic services and all MRDD services. PrecisionCare allows you to share a common database regardless of the diversity of services.

Regulatory Compliance

Prevent costly errors in paperwork!

- PrecisionCare Software helps assure Medicaid Compliance by verifying dates and services. PrecisionCare will not allow erroneous billing for missing or expired service plans.
- PrecisionCare checks consumer attendance and hospitalizations and will calculate valid billing dates.
- PrecisionCare produces clear legible reports.
- PrecisionCare tracks and alerts users of due dates and consumer needs.
- PrecisionCare auto generates consent for release forms.
